Year 2

Summer Term 1

Where do rockets take us?

We will be reaching for the stars this term! We will be learning about the history of flight and how this has culminated in travelling to the moon.

We are reading Man on the Moon by Simon Bartram and Look Up by Nathan Bryon.

We will be writing an adventure story about aliens. We will also be writing fact files all about the planets.

We are finding efficient methods to solve problems using the four operations.

We are learning about the first expedition to space and Tim Peake's journey to the International Space Station.

Skip to the Beat!

We are improving our agility, balance and coordination.

We are learning about relationships and special people. After this we are learning about body parts

In Design and Technology we will be designing and making a fridge magnet.

We are astronauts!

We are learning to code

We are learning a new song called 'Tanczymy labada'.

We will continue to explore the properties of everyday materials. How can we make a strong and sturdy paper bridge?

Key dates

- SATs - during May.
- Trip to the Planetarium - Friday 13th May.

Home learning

- Reading 5x a week.
- TTRockstars or Numbots.
